ACE Explores The Outdoors Program
“Buy a Brick, Build an Amphitheater”**

Welcome to a new and exciting school year at ACE! Some of you may not be familiar with our **ACE Explores The Outdoors Project**. We have been given a phenomenal landscape design, which was developed by Landscape Architect, Martin Thomas with Landscape Alternatives. The goal of this design is to provide more outdoor learning experiences for our children with the addition of outdoor science classrooms, covered picnic shelter, vegetable gardens and more. The goal is to implement the project in several phases. The design will be presented at an upcoming PTA meeting or on display in the front hall for all who would like to view the details of the design.

The initial phase, which was completed last year, was the laying of our hard surface play area, purchasing of playground equipment and planting of mature trees around the playground. With the huge success of phase one, we have decided to move on to phase two. Phase two is going to be the building of an Outdoor Amphitheater located outside the school building behind the cafeteria. The Amphitheater will seat approximately 75 and can be used as an outdoor classroom, for productions, studying, outdoor lunch space, etc. We anticipate the Amphitheater to be completed in the early fall.

We wanted to offer every ACE family the unique opportunity to sponsor this project through purchasing a personalized brick paver to be placed on the amphitheater stage floor. The cost of each brick will be \$50.00. Each brick can be personalized with up to two lines, 14 characters per line. We will offer 400 bricks on a first come, first served basis. Put your mark in ACE history forever.

If you are interested in purchasing a personalized brick, please send payment (checks made payable to ACE PTA) along with the completed form below, to school in an envelope marked “**ACE PTA -ACE Explores The Outdoors**”.
